SECTION 4.  EVALUATION CRITERIA AND CONTRACTOR SELECTION ......................19
SECTION 1. INTRODUCTION & INSTRUCTIONS

SEC. 1.01 PURPOSE OF THE RFP

The Alaska Energy Authority (AEA) is soliciting proposals for a contractor to facilitate and develop an Alaska Electric Vehicle (EV) Working Group along with public outreach and education activities for the group. An ad-hoc EV working group currently exists. The contractor will develop an official group, likely with participation from existing group members, that will meet on a quarterly basis. Smaller break-out groups may form and meet with greater frequency depending on the needs of the group and/or outreach opportunities and events. Public outreach and education activities are to be determined in coordination with the AEA and stakeholders.

SEC. 1.02 BUDGET

AEA estimates a budget of between $80,000 and $90,000 dollars for one (1) year with two one-year optional renewal years. Proposals priced at more than $40,000.00 the first year and more than $90,000.00 for three years will be considered non-responsive.

Payment for the contract is subject to funds already appropriated with USDA State Energy Program and State Funds.

SEC. 1.03 DEADLINE FOR RECEIPT OF PROPOSALS

Proposals must be received no later than 2:00 PM prevailing Alaska Time on DECEMBER 3, 2019. Faxed, emailed or oral proposals are not acceptable.

Late proposals or amendments will be disqualified and not opened or accepted for evaluation.

SEC. 1.04 PRIOR EXPERIENCE

In order for offers to be considered responsive offerors must meet these minimum prior experience requirements:

1. Provide evidence that firm or individual has one (1) year experience in facilitating groups similar to the Electric Vehicle Working Group (i.e. industry working group and/or industry advisory group)

2. Provide evidence that firm or individual has one (1) year experience planning and facilitating meetings, workshops, conferences, and public outreach and education activities.

An offeror’s failure to meet these minimum prior experience requirements may cause their proposal to be considered non-responsive and their proposal may be rejected.

SEC. 1.05 REQUIRED REVIEW

Offerors should carefully review this solicitation for defects and questionable or objectionable material. Comments concerning defects and objectionable material must be made in writing and received by the
contracting officer at least ten days before the deadline for receipt of proposals. This will allow time for the issuance of any necessary amendments. It will also help prevent the opening of a defective solicitation and exposure of offeror's proposals upon which award could not be made. Protests based on any omission or error, or on the content of the solicitation, will be disallowed if these faults have not been brought to the attention of the contracting officer, in writing, at least ten days before the deadline for receipt of proposals.

SEC. 1.06 QUESTIONS PRIOR TO DEADLINE FOR RECEIPT OF PROPOSALS

All questions must be in writing and directed to the contracting officer. The interested party must confirm telephone conversations in writing.

Two types of questions generally arise. One may be answered by directing the questioner to a specific section of the RFP. These questions may be answered over the telephone. Other questions may be more complex and may require a written amendment to the RFP. The contracting officer will make that decision. **No further question will be allowed after November 26, 2019, 2019 at 1:30 pm Alaska prevailing time.**

SEC. 1.07 RETURN INSTRUCTIONS

Offerors must submit one hard copy of their proposal, in writing, to the contracting officer in a sealed package. The cost proposal included with the package must be sealed separately from the rest of the proposal and must be clearly identified. The sealed proposal package(s) must be addressed as follows:

SECTION 2. BACKGROUND INFORMATION

SEC. 2.01 BACKGROUND INFORMATION

Chugach Electric Association established an EV working group composed of staff from the six Railbelt utilities. Concurrently, AEA was designated as the lead agency to administer the Volkswagen State Environmental Trust (Trust) for the State of Alaska. As required by the Trust agreement, AEA developed a Beneficiary Mitigation Plan through a public process which describes how Alaska will disburse the Trust funds. Based on public input, the State allocated the maximum allowable amount, 15 percent or approximately one million dollars, for the purchase, installation, and maintenance of electric vehicle charging infrastructure.

The ad-hoc EV group has expanded to include AEA and various stakeholders interested in promoting EV growth in the state, municipalities, nonprofits, state agencies, electric vehicle owners, and interested community members. The group has met to discuss impediments to EV adoption (e.g., demand fees for DC fast chargers) and how to most effectively use the VW Trust funds to promote EV adoption along the contiguous road system. Various electric vehicle vendors and charging infrastructure manufacturers and distributors have provided presentations to the group.

Similar to other working groups, the EV Working Group will meet on a quarterly basis. The EV Working Group will be a collaborative effort between all Electric Vehicle industry stakeholders. It is expected that the Contractor will work with stakeholders to develop the group’s mission, vision, and goals. As part of the VW settlement, AEA will be soliciting for a vendor to install EV charging stations along the contiguous road system. Though all final decisions will continue to rest with the AEA VW Program Manager and AEA Management, it is expected that the EV Working Group will assist in selecting sites so that the State of Alaska may best aide the continuing development of electric vehicle adoption in Alaska. It is expected that the group members will provide knowledge, resources, and/or personnel in support of the Contractor’s public outreach and education activities. This will largely depend on the mission, vision, and goals of the group.

Private entities may serve on the EV Working Group but would be prohibited from receiving funding from programs or projects initiated by the group. The level of coordination between the EV Working Group and the Electric Vehicle Task Force will be decided by those two groups.
SCOPE OF WORK & CONTRACT INFORMATION

SEC. 2.02 SCOPE OF WORK

Task 1: Project Management

Task 1.1: Project Reporting

Task 1.2: Funding Research

On an ongoing basis, in coordination with AEA, and with counsel from the Electric Vehicle Working Group the contractor shall research funding opportunities for EV activities and, where appropriate, take the necessary steps to secure that funding. It is expected that the EV Working Group, will coordinate with the Contractor and the AEA Program Manager in the identification and acquisition of funding for the AEA Program and/or other purposes to be determined. This work will include, but is not limited to, literature searches and grant and/or other application preparation. The activities for which funding is intended to be sought include, but are not limited to the quarterly EV Working Group meetings, regional meetings, public outreach, proposed future studies and Regulatory Assistance.

Task 2: Electric Vehicle Working Group Facilitation

The Contractor’s work facilitating the EV Working Group will include but is not limited to hosting, leading, taking minutes/meeting notes, and/or participating in meetings and drafting documents that will govern the EV Working Group and producing a quarterly newsletter of the activities. The schedule and agendas of meetings is determined by the individual groups though the Contractor will lead these discussions and be required to enforce funding restrictions on these activities if an increase in meetings is proposed. AEA will work with the Contractor to restructure or provide additional funding if it is determined additional meetings are warranted.

Task 2.1: Electric Vehicle Working Group Facilitation

The Contractor shall, in coordination with AEA facilitate the EV Working Group quarterly meetings. All proposals should include at least four meetings to be held in Anchorage.

Task 2.2: Technical Group Facilitation

Task 3.2: Publication of Materials

The Contractor will produce and publicize materials regarding Electric Vehicle Working Group meetings and events, and Public Education and Outreach Forum(s) as necessary.

Task 4: Model Development

The Contractor shall develop a mathematical model that can be used for site evaluation and outreach to potential site hosts. This may include researching rate structures independently or by working in collaboration with the utilities.

Task 4.1 Gas Equivalent Model:

Develop/create a gas equivalent model that allows a user to input electricity rate data, EV charger utilization, and other factors and produces a breakeven cost to a potential site host and a potential cost to the electric vehicle owner for charging at that specific site. This model should also have cost comparisons for electric vehicles to a similar internal combustion engine. This model will be used for outreach to potential electric vehicle charging site hosts along with other usage and will need to be simple to use and understand as well as visually appealing.

SEC. 2.03 CONTRACT TERM AND WORK SCHEDULE

The length of the contract will be from the date of award, approximately JANUARY 1, 2020, through December

SECTION 5.  GENERAL PROCESS INFORMATION

SEC. 5.01  INFORMAL DEBRIEFING

When the contract is completed, an informal debriefing may be performed at the discretion of the project director. If performed, the scope of the debriefing will be limited to the work performed by the contractor.

SEC. 5.02  ALASKA BUSINESS LICENSE AND OTHER REQUIRED LICENSES

Prior to the award of a contract, an offeror must hold a valid Alaska business license. However, in order to receive the Alaska Bidder Preference and other related preferences, such as the Alaska Veteran and Alaska Offeror Preference, an offeror must hold a valid Alaska business license prior to the deadline for receipt of proposals. Offerors should contact the Department of Commerce, Community and Economic Development, Division of Corporations, Business, and Professional Licensing, PO Box 110806, Juneau, Alaska 99811-0806, for information on these licenses. Acceptable evidence that the offeror possesses a valid Alaska business license may consist of any one of the following:

- copy of an Alaska business license;
- certification on the proposal that the offeror has a valid Alaska business license and has included the license number in the proposal;
- a canceled check for the Alaska business license fee;

- liquor licenses issued by Alaska Department of Revenue for alcohol sales only,
- insurance licenses issued by Alaska Department of Commerce, Community and Economic Development, Division of Insurance, or

Prior the deadline for receipt of proposals, all offerors must hold any other necessary applicable professional licenses required by Alaska Statute.

SEC. 5.03  SITE INSPECTION

The Authority may conduct on-site visits to evaluate the offeror’s capacity to perform the contract. An offeror must agree, at risk of being found non-responsive and having its proposal rejected, to provide the Authority reasonable access to relevant portions of its work sites. Individuals designated by the contracting officer at the Authority’s expense will make site inspection.
SEC. 5.04  CLARIFICATION OF OFFERS

In order to determine if a proposal is reasonably susceptible for award, communications by the contracting officer or the proposal evaluation committee (PEC) are permitted with an offeror to clarify uncertainties or eliminate confusion concerning the contents of a proposal. Clarifications may not result in a material or substantive change to the proposal. The evaluation by the contracting officer or the PEC may be adjusted as a result of a clarification under this section.

SEC. 5.05  DISCUSSIONS WITH OFFERORS

The Authority may conduct discussions with offerors in accordance with AS 36.30.240 and 2 AAC 12.290. The purpose of these discussions will be to ensure full understanding of the requirements of the RFP and proposal. Discussions will be limited to specific sections of the RFP or proposal identified by the contracting officer. Discussions will only be held with offerors who have submitted a proposal deemed reasonably susceptible for award by the contracting officer. Discussions, if held, will be after initial evaluation of proposals by the contracting officer or the PEC. If modifications are made as a result of these discussions they will be put in writing. Following discussions, the contracting officer may set a time for best and final proposal submissions from those offerors with whom discussions were held. Proposals may be reevaluated after receipt of best and final proposal submissions.

If an offeror does not submit a best and final proposal or a notice of withdrawal, the offeror’s immediate previous proposal is considered the offeror’s best and final proposal.

Offerors with a disability needing accommodation should contact the contracting officer prior to the date set for discussions so that reasonable accommodation can be made. Any oral modification of a proposal must be reduced to writing by the offeror.

SEC. 5.06  EVALUATION OF PROPOSALS

The contracting officer, or an evaluation committee made up of at least three state employees or public officials, will evaluate proposals. The evaluation will be based solely on the evaluation factors set out in SECTION 4. EVALUATION CRITERIA AND CONTRACTOR SELECTION.

After receipt of proposals, if there is a need for any substantial clarification or material change in the RFP, an amendment will be issued. The amendment will incorporate the clarification or change, and a new date and time established for new or amended proposals. Evaluations may be adjusted as a result of receiving new or amended proposals.

SEC. 5.07  CONTRACT NEGOTIATION

After final evaluation, the contracting officer may negotiate with the offeror of the highest-ranked proposal. Negotiations, if held, shall be within the scope of the request for proposals and limited to those items which would not have an effect on the ranking of proposals. If the highest-ranked offeror fails to provide necessary information for negotiations in a timely manner, or fails to negotiate in good faith, the Authority may terminate negotiations and negotiate with the offeror of the next highest-ranked proposal. If contract negotiations are commenced, they may be held in the AEA conference room on the FIRST floor of the AEA Building in Anchorage, Alaska.

If the contract negotiations take place in Anchorage, Alaska, the offeror will be responsible for their travel and per diem expenses.
SEC. 5.08 FAILURE TO NEGOTIATE

If the selected offeror

- fails to provide the information required to begin negotiations in a timely manner; or
- fails to negotiate in good faith; or
- indicates they cannot perform the contract within the budgeted funds available for the project; or
- if the offeror and the Authority, after a good faith effort, simply cannot come to terms,

the Authority may terminate negotiations with the offeror initially selected and commence negotiations with the next highest ranked offeror.

SEC. 5.09 OFFEROR NOTIFICATION OF SELECTION

After the completion of contract negotiation the contracting officer will issue a written Notice of Intent to Award (NIA) and send copies to all offerors. The NIA will set out the names of all offerors and identify the proposal selected for award.

SEC. 5.10 PROTEST

AS 36.30.560 provides that an interested party may protest the content of the RFP.

An interested party is defined in 2 AAC 12.990(a) (7) as "an actual or prospective bidder or offeror whose economic interest might be affected substantially and directly by the issuance of a contract solicitation, the award of a contract, or the failure to award a contract."

If an interested party wishes to protest the content of a solicitation, the protest must be received, in writing, by the contracting officer at least ten days prior to the deadline for receipt of proposals.

AS 36.30.560 also provides that an interested party may protest the award of a contract or the proposed award of a contract.

If an offeror wishes to protest the award of a contract or the proposed award of a contract, the protest must be received, in writing or email, by the contracting officer within ten days after the date the Notice of Intent to Award the contract is issued.

A protester must have submitted a proposal in order to have sufficient standing to protest the proposed award of a contract. Protests must include the following information:

- the name, address, and telephone number of the protester;
- the signature of the protester or the protester's representative;
- identification of the contracting agency and the solicitation or contract at issue;
- a detailed statement of the legal and factual grounds of the protest including copies of relevant documents; and the form of relief requested.

Protests filed by telex or telegram are not acceptable because they do not contain a signature. Fax copies containing a signature are acceptable.
The contracting officer will issue a written response to the protest. The response will set out the contracting officer’s decision and contain the basis of the decision within the statutory time limit in AS 36.30.580. A copy of the decision will be furnished to the protester by certified mail, fax or another method that provides evidence of receipt.

All offerors will be notified of any protest. The review of protests, decisions of the contracting officer, appeals, and hearings, will be conducted in accordance with the State Procurement Code (AS 36.30), Article 8 "Legal and Contractual Remedies."

SEC. 5.11 FORMULA USED TO CONVERT COST TO POINTS

The distribution of points based on cost will be determined as set out in 2 AAC 12.260(c). The lowest cost proposal will receive the maximum number of points allocated to cost. The point allocations for cost on the other proposals will be determined using the formula:

\[(\text{Price of Lowest Cost Proposal} \times \text{Maximum Points for Cost}) \div \text{(Cost of Each Higher Priced Proposal)}\]

Offeror #3 receives 33.7 points.

\$40,000 lowest cost \times 40 \text{ maximum points for cost} = 1,600,000 \div \$47,500 \text{ cost of Offeror #3’s proposal} = 33.7

**Step 3**

Offeror #3 is the highest scoring offeror and would get the award, provided their proposal is responsible and responsive.

SEC. 6.05 RIGHT OF REJECTION
Offerors must comply with all of the terms of the RFP, the State Procurement Code (AS 36.30), and all applicable local, state, and federal laws, codes, and regulations. The contracting officer may reject any proposal that does not comply with all of the material and substantial terms, conditions, and performance requirements of the RFP.

Offerors may not qualify the proposal nor restrict the rights of the Authority. If an offeror does so, the contracting officer may determine the proposal to be a non-responsive counter-offer and the proposal may be rejected.

Minor informalities that:

- do not affect responsiveness;
- are merely a matter of form or format;
- do not change the relative standing or otherwise prejudice other offers;
- do not change the meaning or scope of the RFP;
- are trivial, negligible, or immaterial in nature;
- do not reflect a material change in the work; or
• do not constitute a substantial reservation against a requirement or provision;

may be waived by the contracting officer.

The Authority reserves the right to refrain from making an award if it determines that to be in its best interest.

**A proposal from a debarred or suspended offeror shall be rejected.**

**SEC. 6.06 AUTHORITY NOT RESPONSIBLE FOR PREPARATION COSTS**

The Authority will not pay any cost associated with the preparation, submittal, presentation, or evaluation of any proposal.

The offeror's request must be included with the proposal, must clearly identify the information they wish to be held confidential, and include a statement that sets out the reasons for confidentiality. Unless the contracting officer agrees in writing to hold the requested information confidential, that information will also become public after the Notice of Intent to Award is issued.

**SEC. 6.08 ASSIGNMENT**

Per 2 AAC 12.480, the contractor may not transfer or assign any portion of the contract without prior written approval from the contracting officer.

To the extent not otherwise governed by the preceding, the claim shall be brought only in the Superior Court of the State of Alaska and not elsewhere.

After award of contract:

4.1 The contractor may not discriminate against any employee or applicant for employment because of race, religion, color, national origin, or because of age, disability, sex, marital status, changes in marital status, pregnancy or parenthood when the reasonable demands of the position(s) do not require distinction on the basis of age, disability, sex, marital status, changes in marital status, pregnancy, or parenthood. The contractor shall take affirmative action to insure that the applicants are considered for employment and that employees are treated during employment without unlawful regard to their race, color, religion, national origin, ancestry, disability, age, sex, marital status, changes in marital status, changes in marital status, pregnancy or parenthood. For the purpose of including those provisions in an contract or subcontract, as required by this contract, “contractor” and “subcontractor” may be changed to reflect appropriately the name or designation of the parties of the contract or subcontract.

4.5 The contractor shall cooperate fully with State efforts which seek to deal with the problem of unlawful discrimination, and with all other State efforts to guarantee fair employment practices under this contract, and promptly comply with all requests and directions from the State Commission for Human Rights or any of its officers or agents relating to prevention of discriminatory employment practices.

Article 9. Payment of Taxes.

As a condition of performance of this contract, the contractor shall pay all federal, State, and local taxes incurred by the contractor and shall require their payment by any Subcontractor or any other persons in the performance of this contract. Satisfactory performance of this paragraph is a condition precedent to payment by the State under this contract.
Article 10. Ownership of Documents.

All designs, drawings, specifications, notes, artwork, and other work developed in the performance of this agreement are produced for hire and remain the sole property of the State of Alaska and may be used by the State for any other purpose without additional compensation to the contractor. Similarly, changes in the amount of participation by key project members will require AEA approval. This is to ensure that persons with vital experience and skill remain fully involved in the project.
Requests for any change in contractor personnel shall be submitted in writing to the Authority for the Authority's review and sign-off before the change is made. Contractor personnel changes not approved by the Authority may be cause for the Authority to terminate the contract.

SEC. 7.02 ARTICLE 17. SUBCONTRACTORS

The Authority must approve the use or replacement of subcontractors. The Contractor must provide a list of potential subcontractors, a one-page resume for each subcontractor including brief descriptions of previous work, and three references. Replacement of subcontractors may only be made in accordance with approval of the Project Manager and the terms of the final negotiated contract.

SEC. 7.03 ARTICLE 18. CONTRACT INVALIDATION

If any provision of the contract awarded as a result of this RFP is found to be invalid, such invalidation will not be construed to invalidate the entire contract.

SEC. 7.04 ARTICLE 19. TERMINATION FOR DEFAULT

If the Contractor refuses or fails to perform the work, or any separable part thereof, with such diligence as will ensure its completion within the written contracted time frame, the Authority may, by written notice to the Contractor, terminate the right to proceed with the work or such part of the work as to which there have been delays. This clause does not restrict AEA termination rights under the general contract provisions of Appendix A, which is attached to this RFP in the contract documents package.

SEC. 7.05 ARTICLE 20. CONFLICT OF INTEREST

The Contractor may be precluded from participating in future projects during the period of the contract if the Authority determines that such work is in conflict with the performance of this contract and would result in a financial benefit to the Contractor.

SEC. 7.06 ARTICLE 21. NEWS RELEASES

News releases pertaining to the contract shall not be made without prior approval of the Project Manager. The Contractor will be required to coordinate with Project Manager before making any response to a request for information regarding any work or work products related to this contract.

SEC. 7.07 ARTICLE 22. CONTRACT CHANGES

During the course of performing the work required by this contract, the Contractor may be requested to perform additional work within the general scope of the contract.

When additional work is required, the Project Manager shall send to the Contractor a description of the work to be accomplished and request that a proposal be offered within a given time period. No additional work shall commence by the Contractor without an approved written contract amendment by the Procurement Officer.

SEC. 7.08 ARTICLE 23. CONFIDENTIALITY AND OWNERSHIP OF DOCUMENTS

Contractor agrees that all confidential information shall be used only for purposes of providing the deliverables and performing the services specified herein and shall not disseminate or allow dissemination of confidential information except as provided for in this section. The contractor shall hold as confidential and will use reasonable care (including both facility physical security and electronic security) to prevent unauthorized access by, storage, disclosure, publication, dissemination to and/or use by third parties of, the confidential information. “Reasonable care” means compliance by the contractor with all applicable federal and state law, including the Social Security
Act and HIPAA. The contractor must promptly notify the state in writing if it becomes aware of any storage, disclosure, loss, unauthorized access to or use of the confidential information.

Confidential information, as used herein, means any data, files, software, information or materials (whether prepared by the state or its agents or advisors) in oral, electronic, tangible or intangible form and however stored, compiled or memorialized that is classified confidential as defined by State of Alaska classification and categorization guidelines (i) provided by the state to the contractor or a contractor agent or otherwise made available to the contractor or a contractor agent in connection with this contract, or (ii) acquired, obtained or learned by the contractor or a contractor agent in the performance of this contract. Examples of confidential information include, but are not limited to: technology infrastructure, architecture, financial data, trade secrets, equipment specifications, user lists, passwords, research data, and technology data (infrastructure, architecture, operating systems, security tools, IP addresses, etc.).

SEC. 7.09  ARTICLE 24.  REIMBURSEMENT TO THE AUTHORITY FOR UNACCEPTABLE DELIVERABLES

The Contractor is responsible for quality, occurrence and completion of all work identified by the contract. All work shall be subject to evaluation and inspection by the Authority at all times to assure satisfactory progress, to be certain that work is being performed in accordance with the contract specifications, terms and conditions, and to determine if corrections and modifications are necessary. Should such inspections indicate substantial failure on the part of the Contractor, the Authority may terminate the contract for default. Furthermore, the Authority may require the Contractor to reimburse any monies paid (pro rata based on the identified proportion of unacceptable products received) and any associated damage costs.
ATTACHMENT 4:  APPENDIX B INDEMNIFICATION AND INSURANCE

Article 1. Indemnification

The Contractor shall indemnify, defend, and hold harmless the Authority from and against any claim of, or liability for, negligent acts, errors, and omissions of the Contractor under this contract. The Contractor shall not be required to indemnify, defend, or hold harmless the Authority for a claim of, or liability for, the independent negligent acts, errors, and omissions of the Authority. If there is a claim of, or liability for, a joint negligent act, error or omission of the Contractor and Authority, the indemnification, defense and hold harmless obligation of this provision shall be apportioned on a comparative fault basis. In this provision, “Contractor” and “Authority” include the employees, agents and other contractors who are directly responsible, respectively, to each. In this provision, “independent negligent acts, errors, or omissions” means negligence other than in the Authority’s selection, administration, monitoring, or controlling of the Contractor and in approving or accepting the Contractor’s work.

Article 2. Insurance

Without limiting Contractor’s indemnification obligation, Contractor shall purchase at its own expense and maintain in force at all times during the performance of services under this contract the following policies of insurance. Where specific limits are shown, it is understood that they shall be the minimum acceptable limits. If the Contractor’s policy contains higher limits, the Authority shall be entitled to coverage to the extent of such higher limits. Certificates of Insurance must be furnished to the Procurement Officer prior to beginning work and must provide for a notice of cancellation, non-renewal, or material change of conditions in accordance with policy provisions. Failure to furnish satisfactory evidence of insurance or lapse of the policy is a material breach of this contract and shall be grounds for termination of the Contractor’s services. For Contractor’s services performed in Alaska, all insurance policies shall comply with, and be issued by insurers licensed to transact the business of insurance under AS 21.

2.1 Workers' Compensation Insurance: The Contractor shall provide and maintain, for all employees engaged in work under this contract, coverage as required by AS 23.30.045, and; where applicable, any other statutory obligations including but not limited to Federal U.S.L. & H. and Jones Act requirements. The policy must waive subrogation against the Authority and the State of Alaska.

2.2 Commercial General Liability Insurance: covering all business premises and operations used by the Contractor in the performance of services under this contract with minimum coverage limits of $300,000 combined single limit per occurrence.

2.3 Commercial Automobile Liability Insurance: covering all vehicles used by the Contractor in the performance of services under this contract with minimum coverage limits of $300,000 combined single limit per occurrence.

INSTRUCTIONS TO CONTRACTOR for
COST REIMBURSEMENT NOTICE TO PROCEED (NTP)
& BILLING SUMMARY

1. Retain an unmarked, as issued, copy of this form to be used for reproduction and billing.

2. If this NTP is unacceptable, notify the Contracting Agency immediately. If acceptable, acknowledge by signature where indicated on a copy of this NTP and return it within ten days after your receipt.

3. Submit monthly Invoices to the Agency Contract Manager named in this NTP. Provide a copy of page one of this form as the FACE PAGE of each invoice submitted and with the following entries accurately completed:
   a) Indicate if the Invoice is for Progress or Final Payment and show the Sequential Invoice Number for this NTP.
   Entries in the following columns: Prior Approved Payments, This Billing, and Total to Date for each Task Group;
   b) plus the SUM TOTALS for: Authorized To - Date, Prior APPROVED Payments, THIS INVOICE, Prior Payments plus this Invoice, and Balance of Authorized Amount.

Note: “Prior APPROVED Payments” amounts may NOT be the same as the total of all your prior invoices if some items were disallowed or adjustments were made. If a prior billing has not been acknowledged with any payment, or a different amount from your billing was paid without notification to you of the reason(s), attach a request for an explanation and remedial action.

4. Sign, date and enter printed or typed name under “PAYMENT REQUEST (Contractor)” thereby attesting to the following:
   “By signature on this form, the Contractor certifies entries to be true and correct for the services performed to date under or by virtue of said Agreement and in accordance with AS 36.30.400. The Contractor further certifies that all applicable Federal, State and Local taxes incurred by the Contractor in the performance of the services have been paid and that all Subcontractors engaged by the Contractor for the services included in any invoice shall be fully compensated by the Contractor for such services.”

5. When Applicable, ATTACH A CURRENT COPY OF EXHIBIT C-4, COST REIMBURSEMENT BILLING DETAIL FORM (from Appendix C of the Agreement) to each invoice. Internally check the form and correct mathematical extensions. The Contracting Agency may return erroneous invoices for correction before processing for payment.

6. Substantiate all charges in each billing, other than for Fixed Prices or Fixed Fees, by attaching a summary of hours expended and hourly labor rate per employee; summary of units completed; subcontractor invoices; expense receipts, etc.; or other proof of expenditures.

7. Prime Contractor’s Labor and Indirect Cost shall be billed to the Contracting Agency within 45 days of performance. Subcontractors’ Labor and Indirect Cost shall be billed to the Contracting Agency within 60 days of performance. All of the Contractor’s and Subcontractors’ Other Direct Costs (Expenses) shall be billed to the Contracting Agency within 90 days of being incurred. Charges submitted after the above stated times will, at the Contracting Agency’s discretion, not be paid.

8. When each NTP is approximately 75% complete, the Contractor shall determine if the Authorized Amount(s) might be exceeded; and, if so, shall provide an estimate of cost to complete. The Contracting Agency will determine after discussion with the Contractor if additional cost is reasonable and does not include costs that should be absorbed by the Contractor. If additional cost is validated, a negotiated Amendment will be executed which either (1) reduces the scope of services/work products required commensurate with the Authorized Amount(s), or (2) increases the Authorized Amount(s) to that required for completion of the original contract scope.
