

Dated: April 30, 2021
RE: NOTIFICATION
TO REQUEST FOR QUALIFICATIONS (RFQ)
PACKAGE

RFQ 21088
ELECTRIC VEHICLE SUPPLY EQUIPMENT
SUPPLIERS

EMAIL TO: All RFQ recipients on record.

The RFQ Package is hereby clarified or changed as follows:

It has been brought to our attention that on at least one occasion a vendor has presented inaccurate or misleading information regarding the equipment, warranties or operational capability of another vendor. While we believe that site hosts should only deal with authorized equipment vendors directly and not rely on information presented by any unauthorized vendors, AEA does not approve of any vendor presenting misinformation regarding another vendor's line of equipment, warranties, operational capability, or costs. Site hosts should not trust representations about equipment unless the information is provided directly by the equipment manufacturer or its authorized vendor.

This is a reminder that all proposed equipment and services must be approved through the RFQ #21088 process before the equipment and services can be submitted through the RFA.

As the May 5, 2021 deadline for proposal submittal approaches, please provide timely responses to potential site hosts.

END OF NOTIFICATION

All other terms and conditions remain the same.

END OF ADDENDUM

We appreciate your participation in this solicitation.

Sincerely,

A handwritten signature in blue ink that reads "Lois Lemus".

Lois Lemus,
Contracting Officer
