

This is not an order.

INVITATION TO BID NUMBER (ITB)	<i>Contact Information</i>
<b>15055 - Module Addendum 1</b>	Attention – Althea Clapp, Sr. Contracting Officer Alaska Energy Authority (AEA) or (Authority) 813 West Northern Lights Blvd. Anchorage, AK 99503-2495 <a href="mailto:aclapp@aidea.org">aclapp@aidea.org</a> , Ph. 907-771-3018 Fax 907-771-3044

**October 23, 2014**

This addendum is issued for clarification purposes.

1. Bid opening has been extended to: ITB shall be publically opened at, **2:30 p.m. October 29, 2014**, in the Willow Conference Room.
2. Please acknowledge receipt of this addendum in Appendix D Bid Schedule, item #15.
3. I see there is a catwalk both sides of the module. I understand that is not part of the package. However, on sheet MS2 the radiator supports are called out at the same location. Can you tell me which one takes precedence? Also, if the radiator supports do indeed take precedence, are we changing from the existing angle 6 x 6, to the C15 radiator support material. Let me know at your convenience.

Answer: To our knowledge there is no reference to MS2; there are no references to “radiator supports” in this bid.

4. On drawings indicating “see Appendix C for exclusions”; CHANGE to Read: “see Appendix D for exclusions.

Thank you for your interest in our requirements.

Very truly yours,  
*Althea S Clapp*
