Site Address

Street _____

City _____ Zip Code _____

Access Street Name _____

Property Ownership

Is the property occupied by the property owner or currently leased to a tenant?

Owner occupied _____ Property under lease _____

If leased, when does the lease expire? Lease Expiration Date _____

Site Location

Suitable fast charging stations must be located within 5 road miles of the highway system. Enter the distance (miles) the proposed Host Site is located from the corresponding highway segment below.

Highway 9 (Seward Highway)	
	From Seward to intersection with Highway 1
Highway 1 (Sterling Highway)	
	From Homer north to and including Kasilof
	North of Kasilof to intersection with Highway 9
Highway 1 (Seward Highway)	
	From intersection with Highway 9 north to Potter Valley Road intersection
	Anchorage from Potter Valley Road intersection to Muldoon Road exit
Highway 1 (Glenn Highway)	
	East of Muldoon Road exit to Highway 3 intersection at Wasilla
Highway 3 (Parks Highway)	
	West of Wasilla up to and including Trapper Creek
	North of Trapper Creek up to and including Cantwell
	North of Cantwell up to and including Healy
	North of Healy up to and including Nenana
	North of Nenana up to and including Fairbanks

Electric Service Utility

Check the appropriate box for the electric service provider.

Homer Electric Association	Matanuska Electric Association	
City of Seward	Golden Valley Electric Association	
Chugach Electric Association		

Indicate the electric utility Customer of Record:

Property Owner ___ Tenant ___ Other _____

Customer Name: _____

Enter the customer rate class: _____

Electric Service Utility Consultation

Did you consult with the serving utility in preparing this application with respect to 1) the capability of the electrical infrastructure at the site to meet the anticipated load; 2) identification of upgrades that may be needed to meet the anticipated load; 3) estimated cost; and 4) project schedule? Yes ___ No

Is the existing electrical infrastructure capable of supporting the anticipated load? Yes ___ No

Name of Serving Utility Representative: _____

*Attach a letter from the serving utility indicating that the existing electrical infrastructure is either capable of meeting the anticipated load or could be upgraded to meet the anticipated load.

Site Characteristics

Is the site publically accessible 24 hours a day, 7 days a week, 365 days per year? Yes ___ No

Is the site maintained for year-round access? Yes ___ No

Does the site have adequate space for two EVs to charge at the same time? Yes ___ No

Does the site have space available for future expansion? Yes ___ No

Does the site have lighting that covers the charging area? Yes ___ No

If lighting is not currently present, will it be installed prior to activation of the charging site?

Yes No

Does the site have cell phone coverage? Yes ___ No

Does the site have Wi-Fi available? Yes ___ No

Name the Wi-Fi provider _____

Site Venue Type

Check all that apply.

Retail	Education	Parking lot/garage	Hotel
Restaurant	Public Municipal	Fleet	Leisure Destination
Workplace	Medical	Transportation Hub	Non-Profit Meeting Place
Gas Station	Other:		

Equipment

Is the proposed EVSE included in AEA’s list of qualified EVSE Packages found [here](#)? Yes ___ No ___
 DCFC Charger Manufacturer and model _____
 kW output _____ # of chargers _____ Both CHAdeMO & CCS connectors? Yes ___ No ___
 5-year warranty included? Yes ___ No ___ Temperature Range: _____
 Level 2 Charger Manufacturer and model _____
 kW output _____ # of chargers _____ # of ports _____ SAE J1772 Yes ___ No ___
 5-year warranty included? Yes ___ No ___ Temperature Range: _____
 Network Provider/Management Company _____
 5-year maintenance service plan included? Yes ___ No ___

Financial Structure, Management and Ownership

Identify who will manage installation and complete the project.

Site Host ___ EVSE Supplier ___ Utility ___ Site Designer ___ Other _____

Identify who will assume ownership of the charging infrastructure.

Site Host ___ EVSE Supplier ___ Utility ___ Site Designer ___ Other _____

Identify who will receive revenue from EV charging services.

Site Host ___ EVSE Supplier ___ Utility ___ Site Designer ___ Other _____

Identify who will be responsible for maintenance and repair of the charging infrastructure for a period of 5 years.

Site Host ___ EVSE Supplier ___ Utility ___ Site Designer ___ Other _____

Identify who will be responsible for maintaining access to the charging station for a period of 5 years.

Site Host ___ EVSE Supplier ___ Utility ___ Site Designer ___ Other _____

Are you submitting application(s) for other fast charging sites? Yes ___ No ___

If yes, indicate the highway segment(s) for each of the other applications:

Level 2 Charging Station Interest

If this site is not selected as a DC fast charging station, are the parties interested in developing a Level 2 charging station at this site? Yes ___ No___

Application Certification

The undersigned certify that they are the authorized agents of the above stated entities, and that all information and documentation submitted to the Alaska Energy Authority for an award of the VW Settlement Funds are truthful and correct, and that the applicants are in compliance with and will continue to comply with all applicable state and federal laws, and they can legally commit the entities above to these obligations.

The undersigned agree to enter into a Host Site Agreement that will include, at a minimum: five years of operation and maintenance of the charging station; a disposition plan for the station in the event the agreement is terminated; a provision regarding who has the legal right to own and operate the station; and a provision for non-disclosure of proprietary information.

Signature of Authorized Representative Project Lead	Title	Date
Signature of Authorized Representative EVSE Supplier	Title	Date
Signature of Authorized Representative Site Host Property Owner	Title	Date
Signature of Authorized Representative Site Host Tenant (if applicable)	Title	Date
